German I
Unit 1
Getting Started in German

How to Use this Unit

This unit was developed using the principle of beginning with the end in mind. In other words, the end-of-unit assessments were developed first, based on the current Georgia standards for Modern Languages. Those standards were developed and adopted in 2002 and can be accessed in their entirety at the following URL:

www.GeorgiaStandards.Org

To use this unit, follow these steps:

1. Read over the unit in its entirety.
2. Decide which of the Summative Performance-based Assessment Tasks you will use to assess student performance at the end of the unit.
3. Based on that choice, review the Interdisciplinary Instructional Tasks, decide which ones you will use, and in what order.
4. Review your draft unit plan, the Standards and the Corresponding Essential Questions, and the Language Structures Needed for this Unit. Identify any standards that are not addressed or other gaps in instruction and design appropriate Interdisciplinary Instructional Tasks to address those standards and/or instructional gaps.
5. Review the list of Formative Assessment Tasks and decide which ones you will use to assess student progress during the unit. Be sure to choose tasks that will reinforce student performance on the Summative Assessment Tasks. Design your own tasks as well!
6. Review your entire unit and identify the materials and resources you need to teach it.
7. Have fun teaching a performance-based unit!

Interdisciplinary Instructional Tasks

Interpersonal Communication Tasks

1. Meeting Each Other (Language Arts)
   Have students work in pairs to create a brief (3-4 lines) introductory conversation. They should greet each other, tell each other their names, use an expression of courtesy, and tell each other goodbye.

2. Addition and Subtraction (Math)
   Have students create 5 addition and/or subtraction equations, using numerals, leaving out one of the three numbers. When they have written the equations, they should find a partner and read the equations to him/her. The partner then tells the other one the number that should correctly complete each equation.

3. What’s the Weather Today? (Science)
   Each day (after you have taught several weather expressions) ask a student to tell you that day’s weather. Then, have the class repeat it. Go to the following site to find pictures of weather in German: www.enchantedlearning.com/language/german/label/weatherphrases

4. What Day is Today?
   Each day (after you have taught the days of the week) ask a different student to tell you what day it is. Then, have the class repeat it.

5. What is Today’s Date?
   Each day (after you have taught the formation of dates) ask a different student to tell you that day’s date (month and day only). Then, have the class repeat it.

6. What Country is This? (Social Studies)
   Each day (after you have introduced the German world) point to a German, Austrian or Swiss city on a map and ask a different student to tell you the country and the name of the city, in German. Then, have the class repeat the City in German.

Interpretive Communication Tasks

7. What’s that noise? (Language Arts)
   Introduce students to the sounds of German, highlighting similarities and differences. (See the example graphic organizer in the Supplements File for Spanish 1, Unit 1 to create a similar organizer for your class.)
8. **Splash! (Art)**
Cut out colored construction paper and paste it onto white poster board, based on the combinations written below. Write the name of each color in German on the construction paper, but scramble the letters. Have students unscramble the letters and write the color down. Then, ask the students to tell you, in German, the colors they have written down. Then, have students write down the color formed by the combination of the two in German. For example: red + yellow = orange

Color combinations:
- red + yellow = orange
- blue + red = purple
- blue + yellow = green
- white + red = pink
- black + white = gray

9. **Swat that number! (PE)**
Write a random sampling of numbers between 0-31 on a transparency. Divide the class into at least two teams. Have one student from each team go to the board and give each a flyswatter. Call out a number that is on the board. The first student to correctly “swat” it earns a point for his/her team. Each student passes the flyswatter to the next person on his/her team. The game ends when you’ve called out all of the numbers.

10. **Let’s Add! (Math)**
Give students several addition problems, orally in German, using the numbers 0-31. Have students perform the addition and then randomly call on students to tell you the answers in German. An alternative way would be for students to write the numerals on a personal white board*, and have them hold up their answers. Afterwards, call on individual students to tell you the entire equation in German.

* An easy way to make individual white boards is to give each student a clear plastic page protector and a piece of white cardboard or cardstock. Put the cardboard in the protector. Use white board markers to write on the plastic and tissue or a cloth to wipe them off.

11. **Let’s Subtract! (Math)**
Give students several subtraction problems, orally in German, using the numbers 0-31. Have students perform the subtraction and then randomly call on students to tell you the answers in German. An alternative way would be for students to write the numerals on a personal white board, and have them hold up their answers. Afterwards, call on individual students to tell you the entire equation in German.

12. **What’s in My Backpack? (All Subjects)**
   Bring a backpack to class that contains a variety of classroom items. Hold up various classroom items, and call on individual students to tell you what the item is in German. Then, have the whole class repeat what the item is. Once the contents of the backpack have been identified, identify other classroom items, such as desks, bookcases, etc. Have handouts of an unlabeled desktop ready for students to label.

   For the unlabeled desktop handout, go to: [www.enchantedlearning.com/language/german/label/desk/](http://www.enchantedlearning.com/language/german/label/desk/)

13. **Body Parts (Health)**
   Go to one of the following websites and print out the unlabeled body and the unlabeled face for students to label. Use the handouts of the body and of the face to teach body parts. The websites are as follows:
   - [www.enchantedlearning.com/language/german/label/body](http://www.enchantedlearning.com/language/german/label/body)
   - [www.enchantedlearning.com/language/german/label/face](http://www.enchantedlearning.com/language/german/label/face)

14. **Pick the Correct Time (Math)**
   Provide students with clock faces that are missing the hour and minute hands. Call out various times in the foreign language and have students draw the hands on the clocks.

   For this handout, go to: [www.enchantedlearning.com/language/german/label/time2/](http://www.enchantedlearning.com/language/german/label/time2/)

**Presentational Communication Tasks**

15. **The Rainbow (Art, Science)**
   Remind students that the colors of a rainbow appear in the same order as they do in a spectrum (red, orange, yellow, green, blue, indigo, and violet). Then have students draw a rainbow, putting the colors in the appropriate order. After they have drawn and colored the rainbow, they should label each of the colors in the foreign language. Post the rainbows around the room or in the hallways.

16. **The Calendar (Social Studies, Art)**
   Discuss with students the fact that not all countries / religions / cultures follow the same calendar (for example, Gregorian, Julian, Aztec, Jewish, Chinese). Provide students with a blank calendar page and have them fill in the days of the week and dates for one month, according to the calendar that is used in the target culture. Then, have them decorate the calendars and post them. A blank calendar page can be found in the HANDOUTS section of this unit.
17. **Head, Shoulders, Knees, and Toes (Health, P.E.)**
   Play head, shoulders, knees, and toes to practice body parts. Include only basic body parts*, as other body parts will appear in a later unit.

   *Basic body parts would include head, shoulders, knees, toes, eyes, face, ears, mouth, nose, arm, leg, hand, and foot.
