The following instructional plan is part of a GaDOE collection of Unit Frameworks, Performance Tasks, examples of Student Work, and Teacher Commentary for Second Grade Social Studies.

**UNIT 2 - “Our Georgia”**

**Elaborated Unit Focus**
In this unit, students will use the theme of **time, change, and continuity** to begin to focus on Georgia’s government, geography, and economy in order to prepare them for later study of historical Georgians. Using the theme of **distribution of power**, students will compare the basics of state and national government, as well as the need rules/laws in society. Students will locate Georgia’s regions and major rivers, and discuss the impact of geography on people’s lives through the theme of **location**. The theme of **production, distribution, and consumption** will be used to help students learn basic economic concepts that will be used throughout the year.

**Standards/Elements**

- **SS2H1** The student will read about and describe the lives of historical figures in Georgia history.
  - b. Describe how everyday life of these historical figures is similar to and different from everyday life in the present (food, clothing, homes, transportation, communication, recreation, rights, and freedoms).

- **SS2G1** The student will locate major topographical features of Georgia and will describe how these features define Georgia’s surface.
  - a. Locate all the geographic regions of Georgia: Blue Ridge Mountains, Piedmont, Coastal Plain, Valley and Ridge, and Appalachian Plateau.
  - b. Locate the major rivers: Ocmulgee, Oconee, Altamaha, Savannah, St. Mary’s, Chattahoochee, and Flint.

- **SS2CG1** The student will define the concept of government and the need for rules and laws.

- **SS2CG2** The student will identify the roles of the following elected officials:
  - a. President (leader of our nation)
  - b. Governor (leader of our state)
  - c. Mayor (leader of a city)

- **SS2CG4** The student will demonstrate knowledge of the state and national capitol buildings by identifying them from pictures and capitals of the United States of America (Washington, D.C.) and the state of Georgia (Atlanta) by locating them on appropriate maps.

- **SS2E2** The student will identify ways in which goods and services are allocated (by price; majority rule; contests; force; sharing; lottery; command; first-come, first-served; personal characteristics; and others).

- **Map Skills**: 1, 2, 3, 4
- **Info Skills**: 1, 2, 4, 6

**Enduring Understandings/Essential Questions**

- **Distribution of Power**: The student will understand that distribution of power in government is a product of existing documents and laws combined with contemporary values and beliefs.

  - **K-5 EU**: The student will understand that laws and people’s beliefs help decide who gets to make choices in government.

  - What is the difference between the president, governor, and mayor?
  - What does the capital building of Georgia look like?
  - What does the capital building of the United States look like?
  - Where can you find the capital city of Georgia and capital city of the United States on a
map?
Why are rules and laws important? (ex. stop signs, crosswalks, speed limits)
How should citizens of our community behave?

**Location:** The student will understand that location affects a society’s economy, culture, and development.

**K-5 EU: The student will understand that where people live matters.**
- How is each of the five regions of Georgia unique?
- What are the names of Georgia’s seven major rivers?
- Where can you locate each of the five regions of Georgia on a map?
- Where can you locate _______ River on a map? (insert the names of the given rivers)
- Why are so many of Georgia’s cities and towns built near rivers?
- How does living in ________ region affect the way we live?

**Production, Distribution, Consumption:** The student will understand that the production, distribution, and consumption of goods/services produced by the society are affected by the location, customs, beliefs, and laws of the society.

**K-5 EU: The student will understand that the ways people make, get, and use goods and services may be different from how people in other places make, get, and use goods and services.**
- How are goods and services different?
- What are some examples of goods?
- What are some examples of services?
- How do goods get from one place to another?
- Who makes _______? (insert example of a good)
- What kinds of services in our community help other people?
- Why can’t you buy the same goods in our community that you can buy in ________?

**Time, Change, and Continuity:** The student will understand that while change occurs over time, there is continuity to the basic structure of society.

**K-5 EU: The student will understand that some things will change over time, while other things will stay the same.**
- How is transportation today different from transportation in the past?
- How is what you do for fun different from what your parents did for fun when they were children?
- How is what you do for fun different from what your grandparents did for fun when they were children?
- How is what you do for fun different from what children did for fun when _______ was a child?
- What are some rights and freedoms we all enjoy today that some people did not have in the past?
- How did we achieve these freedoms?

*NOTE: The balanced assessment plan included in this unit is presented as a series of suggested activities. It is not expected that the teacher complete all assessments for a successful unit.*
## Balanced Assessment Plan

Sample Performance Task I

Tourism Association of Georgia

You work for the Tourism Association of Georgia. Your task is to create a brochure that identifies the five major geographic regions of Georgia and how each of them is unique. This brochure should attract visitors to the state of Georgia. Each tour guide (student) and their partner will research and use what they already know to create their brochure. Your travel brochure should include the following and will be presented to the other tour guides and/or tourists:

1.) The names of all 5 geographic regions.
2.) What does the land look like? (description and picture)
3.) Names of any major rivers that flow through these regions.
4.) Names of major cities in the regions.
5.) Local attractions for visitors.
6.) Natural resources/manufactured products in each region.
7.) Types of communities in each region (ex. urban, rural, suburban)

You will be asked to present your brochure to other tour guides and tourists. During your presentation, you should use your brochure to answer the following questions:

What is special about your region of Georgia?
Why does where you live matter? (talk about the land, products made in your region, attractions, population, and types of communities)
How does where you live affect your life?
Be sure to include personal examples that relates to YOU. You may talk to your parents, family members, neighbors, teachers, and friends to get ideas!

**Note to teachers: Students may write only about the region in which they live, or they may be assigned/allowed to choose from among the other regions of the state.

**SS2G1 The student will locate major topographical features of Georgia and will describe how these features define Georgia’s surface.**

a. Locate all the geographic regions of Georgia: Blue Ridge Mountains, Piedmont, Coastal Plain, Valley and Ridge, and Appalachian Plateau.

b. Locate the major rivers: Ocmulgee, Oconee, Altamaha, Savannah, St. Mary’s, Chattahoochee, and Flint

**Sample Performance Task II**

**Georgia Art Museum for Children**

You are an artist. You can choose any kind of artist that you would like to be. You may be a famous painter, singer, rapper, song writer, author, architect, etc. Whatever artist you decide to be, your job is to create a piece of art for the Georgia Art Museum for Children. The piece of art will identify the roles of the president, governor, and mayor. No matter what type of artist you choose to be, you will create either a painting, song, poem, or display. Keep in mind that your art must EXPLAIN your thinking, so you will need to create more than just a chart or a list.

You must identify the following in your masterpiece:

1.) **Who?** What does each person lead? (nation, state, city)
2.) **Where?** In what building does each person work? (state, city hall, etc.)
3.) **What?** Name (3) duties/responsibilities for EACH leader.
4.) **How?** Explain how each leader’s position affects your life and the lives of the citizens in your community.

Your piece of art will be displayed in the Georgia Art Museum for Children (a spare classroom or other area in the school) and your school will be invited to come by to see and hear you present your finished product in order to learn more about our government.

**SS2CG2 The student will identify the roles of the following elected officials:**

a. President (leader of our nation)

b. Governor (leader of our state)

c. Mayor (leader of a city)

**SS2CG4 The student will demonstrate knowledge of the state and national capitol buildings by identifying them from pictures and capitals of the United States of America (Washington, D.C.) and the state of Georgia (Atlanta) by locating them on appropriate maps.**

Georgia Information and Resources
Our Leaders!

Standards:
SS2CG1 The student will define the concept of government and the need for rules and laws.
SS2CG2 The student will identify the roles of the following officials: a. President, b. Governor, c. Mayor
SS2CG4 The student will demonstrate knowledge of the state and national capitol buildings by identifying
them from pictures and capitals of the USA and the state of Georgia by locating them on appropriate maps.

Task:
You are going to create a “hanger mobile” that tells about the roles of our President, our Governor, and our Mayor.

Materials:
One wire hanger
Information cut-out sheet (attached) that includes:
  o Labels for the 3 types of leaders
  o Picture cards of the leaders
  o Place cards that show where they work
  o Job description cards that tell what the leaders do

***Option: Teachers can print the cut-out sheets on card stock for instant use, or on regular paper
for students to cut out and glue on index cards.

Yarn or string
Hole puncher
Tape

Directions:
1. You will cut out all of the information cards.
2. Punch a hole in each card.
3. Cut yarn (about 12 pieces) to attach the cards to each other.
4. You need to put the information cards in the correct order. (see teacher’s example)
5. Once finished, you will need to present your “Leader Mobile” to the class and explain why you put the cards where you did.
6. Lastly, you will choose which leader you would prefer to be (Mayor, Governor, or President) and complete the sheet your teacher gives you.
Who Do I Want to Be...Governor, Mayor, or President?

Name ______________________ Date _________

I have decided that I want to be _________________.
The reasons I want to be ________________ are because (list 3 reasons why):

1. ___________________________________________

2. ___________________________________________

3. ___________________________________________

These are the things I would change if I were the

</tr>
</tbody>
</table>

Inside: (bottom)

| Explain what the mayor does and why his/her job is important. | Explain what the governor does and why his/her job is important. | Explain what the president does and why his/her job is important. |
| Also, tell why the mayor gets to make the choices he/she does. | Also, tell why the governor gets to make the choices he/she does. | Also, tell why the president gets to make the choices he/she does. |
Teacher’s Guide to
Making a “Yummy” Map of Georgia

Learning Georgia’s Physical Geography Through Making an Edible Map

Grade: 2
Subject: Social Studies

Standard:
SS2G1 The student will locate major topographical features of Georgia and will describe how these features define Georgia’s surface.

a. Locate all the geographic regions of Georgia: Blue Ridge Mountains, Piedmont, Coastal Plain, Valley and Ridge, and Appalachian Plateau.

b. Locate the major rivers: Ocmulgee, Oconee, Altamaha, Savannah, St. Mary’s, Chattahoochee, and Flint

Description:
This lesson is messy, but fun! The students will extend their learning of Georgia’s regions and major landforms by making an edible map. They will use different edible objects to display the different topographical features of our state. Therefore, this lesson should follow or accompany a study of Georgia’s five geographical regions as well as Georgia’s 7 major rivers.

Tasks and Concepts:
Students will be able to create, describe, and represent Georgia’s regions, rivers, and landforms.

Materials (This recipe makes about 25 maps):

- cookie dough (see recipe below)
- 1 reference map of Georgia’s regions (per student)
- 1 sheet of wax paper (per student)
- coconut (dyed green)
- blue icing (the gel kind that comes in a tube)
- chocolate chips
- M&Ms
- 7 pre-made toothpick flags (to label Georgia’s 7 major rivers)
**Dough Recipe:**

* 2 cups smooth peanut butter
* 2 1/2 cups powdered milk
* 2 1/2 cups powdered sugar
* 2 cups white corn syrup

**Procedures:**

1. Pre-make and separate the dough at home.
2. Pre-make and label toothpick flags with the following names to show Georgia’s 7 major rivers (make sets of 7):
   a. Ocmulgee
   b. Oconee
   c. Altamaha
   d. Savannah
   e. St. Mary’s
   f. Chattahoochee
   g. Flint
3. Talk with the students about the unit they’ve been working on and introduce today’s culminating activity.
4. Do a sample model for the students.
5. Give each student or group of students (two or three at the most), the reference map.
6. Allow students to look at the map to find Georgia’s regions and geographical features.
7. Tape a piece of wax paper on top of each student’s reference map.
8. Give each student (or group) a portion of the dough.
9. Have the students shape the dough into the shape of Georgia using the reference map beneath for help.
10. Once the map is shaped, have the students place the edible objects that represent the landforms onto the map. (They may peek back and forth at the reference map underneath for hints.)
11. Have the students to place their pre-labeled toothpick flags on each river representation.
12. When the map is finished, have the students to share and compare their map with the rest of the class. (Allow the students to look for and make any corrections needed.)
13. Look at each map and assess using the attached rubric.
14. EAT!!!
Student Activity

A "Yummy" Map of Georgia's Regions and Landforms!

Name ___________________________ Date ____________

What You Need:

- 1 ball of cookie dough
- 1 guide map of Georgia's regions
- 1 sheet of wax paper
- green coconut
- blue icing
- chocolate chips
- M&Ms
- 7 toothpick flags (to label Georgia's rivers)

How to do it:

1. Put your map of Georgia on your desk.
2. Put your sheet of wax paper ON TOP of your map. Let your teacher tape it down so that it does not move.
3. Spread the cookie dough into the shape of Georgia. (Use your map to help you!)
4. Put the chocolate chips on top of the BLUE RIDGE MOUNTAINS, THE RIDGE AND VALLEY, AND THE APPALACHAIN PLATEAU.
5. Put M&Ms over the PIEDMONT.
6. Put the green coconut over the COASTAL PLAINS.
7. Use the blue icing to show Georgia's 7 major rivers.
8. Use your guide map to check your work to make sure that you have put regions, landforms, and rivers in the right place!
9. Compare your map with a partner. See where they put Georgia's regions and landforms!
10. Have your teacher to check your work.
11. EAT!!!
