

Example Images of Erosion and Deposition for class and small group discussion

Sample Discussion Questions:

- What changes do you see happening in these pictures?
- What is the cause of the change?
- What is the effect of the change?
- Is this a constructive or destructive process or both?
- Can you have one without the other?
- Is there a way to prevent this from happening?
- Do you know of areas in your own yard or school yard where this is a problem? What can you do?

These are after pictures of erosion. Choose one and draw or explain what the land probably looked like before the erosion happened.
