

CTAE

Career, Technical & Agricultural Education
Education that works for Georgia

CTAE STATE
NEWSLETTER
Volume 1, Issue 7
November 2014

Greetings from David Turner CTAE State Director

The implementation of our new Career Clusters and Pathways is now complete. You should be using the new courses in each of the pathways that you offered at your school.

Please check out the **CTAE Pathway Courses** section of the GaDOE CTAE webpage, <http://www.gadoe.org/Curriculum-Instruction-and-Assessment/CTAE/Pages/cluster-pathway-courses.aspx> outlining the list of CTAE courses for all of pathways. Please plan to regularly visit the website to learn more about the options that are available to our students. If you have questions about the process of allowing students to complete a pathway started under the old courses, please contact the Program Specialist for that pathway.

As you already know, there are two key CCRPI and Perkins Federal Grant measures that are specific to the CTAE pathway program. (1) The first is the percentage of CTAE students that are Pathway Completers. (2) The second is the number of CTAE Pathway Completers that successfully complete an End of Pathway Assessment (EOPA). I encourage you to make certain that you are offering to your students the correct courses to become pathway completers and that you provide access to the appropriate EOPA for each pathway.

I hope that you are working with your school counselors to ensure that your system is focusing on career awareness in elementary grades, career exploration in the middle school grades, and career development in our high schools.

Please make sure that you are providing up-to-date information on the different components of the CTAE program. Consistent and accurate communication between the teachers, school counselors, and administrators is critical for the success of our students.

Another great resource for all CTAE staff is your School Nurse. Did you know that your school nurse can advise you on proper procedures to follow in the event of an accident or injury in our CTAE labs?

Please take the time to talk to your school nurse about your programs and potential accidents that could occur. Being prepared can save a life.

Do you have a STEM school? Did you know that your school could become STEM certified? If you are interested in becoming a STEM-certified school, please contact Dr. Gilda Lyon at glyon@doe.k12.ga.us to discuss the requirements.

I encourage all of the CTAE Directors to attend the Winter Leadership Conference on February 4-6, 2015. Please see the Save the Date section of this newsletter or contact your CTAE Regional Coordinator for more information.

I am very proud of the job that the CTAE teachers and administrators across our state do each day. I am also proud of the CTAE Division team here at the Georgia Department of Education. I believe that we have the best state staff in the nation. I hope that you will contact the CTAE staff if we can ever assist you. Please know that our team is always here to support you!

If you have any questions, comments or suggestions, please do not hesitate to give me a call or email me at any time.

David

STUDENT SUCCESS STORY INFORMATION

Continue the Tradition of Showcasing Your CTAE Student Success Stories

The student success story section of our CTAE State Newsletter has been a great success. To showcase your student success stories, please click the form below to get started. Simply complete the student success narrative and include .jpg photos of students engaging in action-oriented activities related to Career Clusters / Pathways. Be sure to submit a completed photo release form with your student success form.

The deadline to submit your Student Success documentation to Elizabeth Lewis-Draffen, elewis-draffen@doe.k12.ga.us, for the January 2015 CTAE State Newsletter will be Friday, January 23, 2015.

STUDENT SUCCESS SPOTLIGHT

Makenzi Petrin, of Forsyth County High School came into the Culinary Arts program as a 10th grade student. Makenzi had been cooking with her mother for many years.

After the sixth week of class, she was awarded with a blue ribbon for first place in a cupcake contest at the Forsyth County Fair. Makenzi made the competition team and took on the role as a manager, which has helped her become confident in her skills.

Makenzi is using her skills to run a side business for her cupcakes.

Submitted by: Dawn Martin, Culinary Arts Instructor

Erika Carrazco

Atlanta Area School for the Deaf Nutrition and Food Science Program

Donte Stanley

Erika Carrazco and Donte Stanley were in the Nutrition and Food Science program at the Atlanta Area School for the Deaf. They were two of three students who took and passed the EOPA to earn their certificates as ServSafe Food Handlers. These students were one of the first to receive this honor.

Erika and Donte are beginning their Work-Based Learning experiences in the school cafeteria and will move to a local restaurant during the second semester.

These students are gaining valuable experiences to help them secure employment after graduation.

Accountability and Improvement
Brenda Barker, Program Manager
brbarker@doe.k12.ga.us

The FY15 Perkins Five-Year Compliance Reviews began in September and continues through December, with 34 school systems being visited this year. Assessment and restructuring of CTAE programs should be a continual process within the school system. This process should be an integral part of a school system's plan to assess the overall effectiveness and/or efficiency of the system's programs and services. The assessment process provides vital information in determining the extent to which the system's goals and objectives are being met, and ultimately how students are being served. The Perkins Compliance Review and Self-Study process will assist the local school system in its long-range planning, which is a requirement of the Carl D. Perkins Career and Technical Education Act of 2006.

Spring Regional CTAE Administrator Updates

Three Regional Workshops—March, 2015

Because of the upcoming changes in federal regulations for FY16, the Accountability and Improvement Team has decided to offer three Spring Regional CTAE Administrator Updates, one per region, for CTAE Directors in March, 2015. Registration for these three workshops will be available on the CTAE Resource Network after the first of the year. Participants may attend any of the three which best suits their schedule and location.

Wednesday, March 11, 2015
South Region
UGA Tifton Campus Conference Center
15 RDC Road
Tifton, GA 31703

Wednesday, March 18, 2015
North Region
Hilton Atlanta/Marietta Conference Center
500 Powder Springs Street
Marietta, GA 30064

Thursday, March 26, 2015
Central Region
Central Georgia Technical College – Macon Campus
3300 Macon Tech Drive
Macon, GA 31206

Spring 2015 Technical Assistance Workshops

These workshops will provide a "hands-on" opportunity for CTAE Administrators to begin completing the CTAE Federal and State grant application process on the DOE Consolidated Application. Each registered participant will have access to a computer workstation and be able to log onto his/her system's Consolidated Application. CTAE Administrators who do not have login access and editing rights to the CTAE Applications in the Con App are encouraged to bring someone to the workshop that has access. State CTAE personnel will be present at all workshops to answer questions and assist with the grant applications. Locations for these workshops will be announced at the Winter Conference

Development and Transition
Emily Spann, Program Manager
espann@doe.k12.ga.us

CTAE Directors, CTAE Instructors, and School Counselors!

We appreciate your continued support of all of our CTAE programs and initiatives! Please see below for the most up-to-date information from the hard-working Development and Transition State Staff team members on STEM, End of Pathway Assessments, CTAE Instructional Resources, Professional Learning, Industry Certification, Non-Traditional Programs, JROTC, and Dual Enrollment.

Note that CTAE offers important professional learning opportunities for CTAE Directors and Supervisors, CTAE Instructors, and School Counselors and workshop details and registration information is located on the CTAE Resource Network website at www.ctaern.org.

Dr. Gilda Lyon, STEM Specialist
glyon@doe.k12.ga.us

First Georgia STEM Forum a Success

CTAE, math, and science educators (946 attendees) joined together to learn about science, technology, engineering, and math (STEM) at the first Georgia STEM Forum October 20-21, 2014, in Athens. This was the first time that CTAE and core content teachers K-12 convened under one roof for a professional learning conference to learn how to implement STEM in schools. The Forum was sponsored by the Georgia Department of Education and the Career, Technical, and Agricultural Resource Network. Workshops on maker spaces, project-based learning, integrated instruction, and engaging business and community partnerships were just some of the highlights. Debra Howell, a business partner from Georgia Power stated “I just kept learning. This was one of the most exciting conferences I have attended.” The positive response from attendees has the organizers already thinking about next year.

Dr. John Pritchett, Middle School Curriculum Coordinator
jpritchett@doe.k12.ga.us

Instructional Resources for CTAE Foundation Courses

To update and better prepare students for career and college opportunities, instructional resources for the Georgia Career Cluster and Pathway foundation courses are currently being developed. These instructional resources are being developed with industry concepts as the central focus of every activity, followed by multiple ways to integrate technology and web 2.0 tools into the student work.

Students will also be able to work through differentiated activities and apply the course standards and concepts to a business simulation activity operated and led by student teams. As more content is developed and approved, course units will be found on a new instructional resource link within the CTAERN web site. Contact Dr. John Pritchett, jpritchett@doe.k12.ga.us

FY2015 End of Pathway Assessment (EOPA)

Activities

As systems prepare for the FY2015 End of Pathway Assessment activities, several helpful reminders will facilitate a smooth testing process for winter and spring EOPA testing activities. Remember to go to the CTAE Assessment Web Page at: <http://www.gadoe.org/Curriculum-Instruction-and-Assessment/CTAE/Pages/CTAE-Georgia-Assessments.aspx> to see a copy FY2015 Technical Skill Attainment Inventory, recently updated to include additional test options for most of the pathways in the Law, Public Safety, Corrections and Security Cluster. Two of the pathways (Corrections and Security/Protective Services) in this cluster did not have referenced EOPAs in the earlier publication of the inventory. Assessment Information Sheets for the new/additional exam options have been added on the CTAE Assessment Web Page as well. Oklahoma CareerTech Testing has changed the name of several of its test titles included in the Georgia inventory. These new test titles are referenced on the updated copy of the FY2015 Technical Skill Attainment Inventory.

Recently, the ASK Institute updated its Fundamental Marketing Concepts and Fundamentals Business Concepts blueprints. Here are the new links to the updated blueprints

Fundamental Marketing Concepts:
<http://www.nocti.org/PDFs/ASK/8339%20&%208355%20ASK%20Fundamental%20Marketing%20Concepts.pdf>

Fundamental Business Concepts:
<http://www.nocti.org/PDFs/ASK/8238%20&%208358%20ASK%20Fundamental%20Business%20Concepts.pdf>

All Assessment Information Sheets for these two exam options are updated on the CTAE Assessment Web Page. CTAE Administrators and CTAE Instructors should ensure that the most recent blueprint is being utilized for these two exam options. One last reminder - before ordering exam vouchers, refer to the Assessment Information Sheet for the most current exam pricing and ordering information. We appreciate the tremendous efforts by our CTAE instructors, administrators, and students towards participation in EOPA testing activities. For questions regarding EOPA, please contact **Mamie Hanson**, mhanson@doe.k12.ga.us.

Gary Mealer, Program Specialist

gmealer@doe.k12.ga.us

Dual Enrollment/Dual Credit—Governor Nathan Deal formed a task force to review the four current dual enrollment programs. The charge to the task force was to determine how the dual enrollment process could be streamlined for student. The task force met over the past several months and has completed its work. We will make you aware of any changes as a result of the task force recommendations.

JROTC—The State Advisory Committee recently met in Macon. The biggest news is the Army has invited representative staff from the Ga. Professional Standards Commission and the Ga. Dept. of Education to visit Fort Knox to review the JROTC instructor training process. This is the first major step in the evaluation and possible teacher certification provider approval process. Instructors completing the training would be candidates for applying for certification immediately upon completing the military training.

Program Delivery

Dwayne Hobbs, Program Manager

dhobbs@doe.k12.ga.us

Georgia's CTAE teachers and students are so fortunate to have the support structure that our Program Delivery Team provides. This team is an extraordinary group of individuals that are very passionate about the goals and vision they have for improving CTAE in Georgia. I encourage you to read this newsletter carefully, and choose to get involved and participate. You will notice that Professional Development is a common theme in this newsletter.

The CTAE Teacher Fall Drive In Workshops were videotaped and will be available shortly for those that were not able to attend. Once the videos are posted on-line, a mass e-mail will be sent out via CTAERN. The e-mail will direct you to a Google document where you will register so you get credit for participation and then you will receive the actual link to the videos. There is a general session and then breakout sessions to pick from.

Delda Hagin

Business Management and Administration; Finance; Information Technology Delda Hagin dhagin@doe.k12.ga.us

I am excited to be the newest member of the CTAE Program Delivery Team as your new Program Specialist for Business Management and Administration, Finance, and Information Technology. Before moving to GaDOE, I was a high school business teacher in the Ware County school system for 16 years and have experienced firsthand many changes in curriculum, teacher evaluations, and other areas. I have several goals that

involve all our stakeholders: 1. To provide our industry partners with workers who have the skills necessary to be successful in the workplace; 2. To provide a curriculum for our students that is both rigorous and relevant to today's and tomorrow's workplace; and 3. To provide professional development, resources, and support to our teachers so that they are able to make the first two items a reality. It is my pledge to listen to your suggestions and seek your assistance in making Georgia the leader in Business Education.

In addition, four webinars are available for registration on the CTAERN Resource Network: Networking Fundamentals-CTAERN4169; Computer Science Principles-CTAERN4159; Digital Design-CTAERN4170; Middle School-CTAERN4158; and IT Academy-CTAERN4157. If you would like to teach a webinar, please contact me. I am working through the list of suggestions that I received from you at the Georgia Business Education Association Fall Conference 2014. Keep watching CTAERN for new all-day workshops for the various courses and pathways. Until next time! ~

Science Technology Engineering Math; Manufacturing; Energy

Dr. Mark V. Crenshaw mcrenshaw@doe.k12.ga.us

Our programs allow us to unleash the human potential related to STEM's technology and engineering, manufacturing, and energy education and make them the most important subjects in school and we have the pathways in which to do this. Please note that the workshops from the recently-completed GETEA Teacher's Conference in Savannah will be posted on the website, as well as the Tech Fest lessons shared during the conference at www.getea.org.

The ITEEA conference is just around the corner in Milwaukee, WI, March 26-28, 2015 and registration is now open <http://www.iteea.org/Conference/conferenceguide.htm>. We hope to see you there and bring an administrator (their registration cost is free), and they will have their own conference track <http://www.iteea.org/Conference/Administrators.pdf>. Keep doing what you do best and that is giving your best to our students! Feel free to contact me if you have any questions or comments.

Tammy Caudell

tcaudell@doe.k12.ga.us

Special Populations - Career and Technical Instruction (CTI) and Coordinated Career Academic Education/Project Success (CCAЕ/PS)

As the CTAE Program Specialist for Special Populations my role is to provide curriculum and technical support along with professional development opportunities to high school teachers of Career and Technical Instruction (CTI) and Coordinated Career Academic Education/Project Success (CCAЕ/PS).

Our goal is to ensure students from Special Populations, enrolled in Career, Technical, and Agricultural Education (CTAE) programs, acquire the skills needed for a successful transition from high school to post-secondary school and/or employment. Professional development opportunities will be available at www.ctaern.org for Coordinated Career Academic Education (CCAЕ)/Project Success (PS) Coordinators and Career Technical Instruction (CTI) Coordinators. Subsequently, I would like to hear from each of you regarding the type of professional development you would like to receive this year to help familiarize yourself with the new CTAE Career Clusters and Pathways, so please email me your thoughts and ideas (tcaudell@doe.k12.ga.us).

Phyllis Johnson

pjohnson@doe.k12.ga.us

Healthcare Science; Law, Public Safety, Corrections and Security (LPSCS); Human Services (Cosmetology-Barbering)

Within the course descriptions, you will find special information when implementing specific pathways. (Ex. EMR has certain requirements for the instructor, equipment etc.). At the new course trainings this summer, “Live Binders” were created for the courses in all three of the clusters. Live Binders are similar to an electronic 3-ring binder with tabs. The tabs contain resources that teachers have shared, as well as PowerPoint presentation, updates and other information from the State Department. Please plan to share at least one activity to contribute to the binders. After sharing a resource, the teacher will receive a Live Binder invitation (new teachers can receive it by simply emailing me and telling me they are brand new). For example, there are 360 high school healthcare teachers and if everyone shares one activity, more resources would be available to improve and/or enhance instruction.

Hospitality & Tourism-Culinary Arts; Education & Training; Human Services-Family and Consumer Sciences

Daphne L. Bonaparte dbonaparte@doe.k12.ga.us

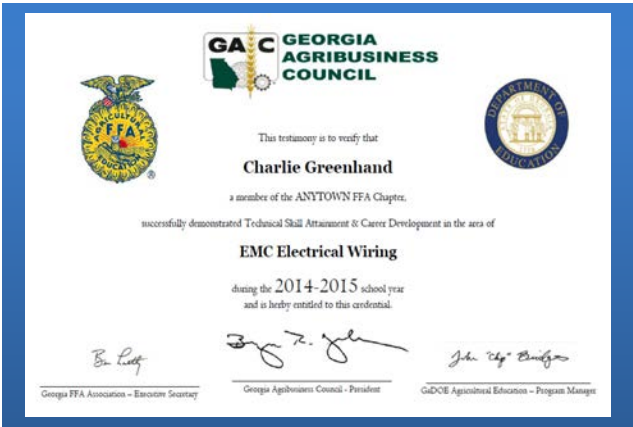

The Culinary Arts, Education & Training and Family and Consumer Sciences Pathways remain a strong building block to improving the quality of life for individuals, families and communities across the state of Georgia. Over 15 programs have gained exemplary commendations through the industry certification process. In addition, several teachers have been honored as their school or system’s teacher of the year. We continue to move forward towards our goals of recruiting highly qualified teachers, increasing the number of programs that have gained industry certification, creating professional learning communities, supporting Family, Career and Community Leaders of America and strengthening relationships with business, industry and postsecondary institutions.

Agriculture Education
Chip Bridges, Program Manager
jbridges@doe.k12.ga.us

Speaking as a product of the program, agricultural education can truly make a positive difference in the lives of students. I am thankful for those opportunities provided to me by my agricultural education teachers and FFA Advisors. I now realize that those learning experiences would not have been possible without a tremendous support system. I probably never really expressed gratitude to those school administrators (CTAE supervisors in particular) for being so supportive of those activities and events that helped me grow so much during my time in high school. I am thankful that they had the knowledge and leadership to see the value and importance of the agricultural education activities that helped make a positive difference in my life. And so, as a product of the program, I would like to take this time to say **THANK YOU** to every CTAE supervisor / director that sees the value and importance of a quality agricultural education program. **THANK YOU** for your support of the activities and events that the agriculture teachers / FFA Advisors are providing to your students. I would also like to invite each of you to attend any FFA event this year. We would welcome your involvement and hope to see you as often as possible. It is a tremendous experience to share in the growth of your students. The Agricultural Education team would love to see you soon.

Again this year, we are pleased that the Georgia Agribusiness Council (GAC) will provide the recognition for any agricultural education student that successfully meets the minimum quality requirements in any of the FFA Career Development Events. GAC represents more than 800 agribusiness members that are working together to promote the business of agriculture through economic development, environmental stewardship, and education to enhance the quality of life for all Georgians.

These industry recognized credentials support technical skill attainment and leadership skill development of students as they showcase those knowledge and skill competencies obtained while preparing for and competing in FFA Career Development Events. Last year there were more than 7600 credentials provided to Georgia students in agricultural education. Be on the look-out for the student credential this year that will be sent directly to CTAE directors from your AgEd region office for distribution to the students.

As always, we are here to help you in any way. Please contact your Region AgEd Director if you have a question about agricultural education. Here is the contact information:
 North Region – Mr. Stan Mitchell, smitchell@gaaged.org or smitchell@doe.k12.ga.us -- (706) 338-7230
 Central Region – Mr. Chris Corzine ccorzine@gaaged.org or ccorzine@doe.k12.ga.us – (864) 844-4412
 South Region – Dr. Lynn Barber lbarber@gaaged.org or lbarber@doe.k12.ga.us – (912) 584-8442
 FFA Office – Mr. Ben Lastly blastly@uga.edu or blastly@doe.k12.ga.us – (706) 410-4604

John Bridges

CTAE STATE PROGRAM MANAGER UPDATES *(continued)*

Counseling / Career Development
Dr. Myrel Seigler, Program Manager
mseigler@doe.k12.ga.us

Over the past few months, the GaDOE has been partnering with the Southern Regional Educational Board (SREB) to work with identified systems on Counseling for College and Careers. Systems were identified based on need in the following areas: 1) Graduation Rate; 2) 9th grade failures; 3) Achievement based on EOCT scores in Math II and American Literature; and 4) Attendance. The workshops have been very successful in that we have worked with over 50 systems in developing an advisement plan to be implemented across the district. Each system that participated were required to send a team made up of at least one elementary person, one middle school person, one high school person, and at least one district level person that could make decisions for the system. Representatives from the team varied as we had counselors, assistant principals, principals, coordinators and directors, and assistant or associate superintendents. Teams were reimbursed for their travel, lodging, and meals. The feedback from the participants was positive and each system reported their plan to the groups for discussion and sharing. Our intent is to conduct at least one more workshop sometime this fall or spring. Systems will be invited based on the criteria listed above. If your system is interested, please contact me directly.

REMINDER: By April 1st, all students in grades 8 through 11 should be provided information regarding Dual Enrollment/Credit opportunities. Please check your school's procedure for ensuring compliance with this legislation.

Dual Enrollment Update:

The links below will connect you to a page that has the new spring, 2014 Dual Enrollment Course Credit Directory. This should be used for advising students for the upcoming semester for Dual Enrollment opportunities in Technical Colleges and Schools of Georgia. The new courses that have been added since this current fall that will be used for the spring, 2014 are **highlighted in yellow** in the link below:

<http://www.gadoe.org/Curriculum-Instruction-and-Assessment/CTAE/Pages/Transition-Career-Partnerships.aspx> or
<http://www.gadoe.org/Curriculum-Instruction-and-Assessment/CTAE/counselor/Pages/High.aspx>

If you have questions about Dual Enrollment, contact **Gary Mealer** at gmealer@doe.k12.ga.us

REMINDER: HOPE requirement changes take effect for students graduating on or after May 1, 2015. Visit the following site for more information:
http://www.gsfc.org/main/publishing/pdf/2012/Rigor_Explanation.pdf

The Georgia Department of Education is partnering with the School Social Workers Association of Georgia to host a one-day conference on **Wednesday, March 25th, 2015**. This conference is open to school counselors and school social workers and will feature nationally recognized speakers highlighting topics relating to reconnecting our youth to a college and career focus.

The conference is will be free and a lunch will be provided. Registration details will be forthcoming in the next few weeks.

State School Nurse Update

Georgina Howard, RN, MS

goward@doe.k12.ga.us

Important Information Regarding Ebola Virus Disease

School Nurses and school health staff are encouraged to review infectious disease guidelines and checklists to ensure an understanding of the Ebola virus disease, including how it is transmitted and what precautions are necessary to protect the public and health care providers.

Visit the [Centers for Disease Control and Prevention's Ebola page](#) for the most current updates and guidance.

Available for your information are several documents regarding Ebola Virus Disease (EVD) developed by The Georgia Department of Public Health. The document below for Georgia nurses (including school nurses) reviews what signs and symptoms to watch for and what precautions need to be taken.

- [Ebola letter to GBON Licensed Nurses](#)

The Georgia Department of Public Health requested our assistance in sharing with all school districts the following guidance letter regarding the Ebola virus.

- [DPH Guidance Letter for all school districts regarding the Ebola virus](#)

If you have any questions, please contact the Georgia Department of Public Health (DPH) at 1-866-PUB-HLTH (1-866-782-4584) or the DPH Epidemiology Section at 404-657-2588.

Please visit the webpage at www.schoolnurse.gadoe.org.

The School Nurse Exchange provides a collection of resources for school nurses to keep abreast of current trends and best practices in the leadership and delivery of school based health services. This webpage serves as a vehicle for exchanging ideas and suggestions to support school nurse programs across Georgia.
