

## Test and Revise Questions

1. Does my device resemble the original design?
2. If my device does not resemble the original design, why not? Were the changes I made to the design deliberate? Will the current device still work as desired?
3. What do I still need to do to make my device work?
4. Are there any changes I need to make to the design?
5. If the device is ready, how does it perform during a test? Did the test show any changes that I need to make?
