

Instructions for viewing the Access to the GPS Training Videos

The Training Videos require Apple Quick Time for viewing. Download a free version of this player [here](#).

The videos may also be viewed in iTunes. The link below will launch the iTunes player, download the video and allow it to be viewed. From iTunes, the video can be synced with a Video iPod for playback.

For the best experience, [download iTunes](#) - the latest version of Apple's media player that allows you to organize and play videos or podcasts on a Mac or PC.

Want to know more about podcasts? Visit the iTunes [FAQ page](#).
