Introduction to the Georgia Performance Standards for K-5 Modern Languages

Five-Day Model Foreign Language in the Elementary Schools (FLES) Model

Philosophy

Language and communication are the essence of all that is human. The world of the 21st century is one in which all people must learn to communicate both culturally and linguistically with others around the globe. The goals of the modern language standards are:

- to equip students with realistic lifelong skills that will enable them to function competently in a language other than their own and communicate and compete effectively in the global community and marketplace.
- to instill in students a greater awareness of their own culture and the culture(s) of others.
- to enrich students’ lives by increasing their appreciation for language and culture.

The Georgia Performance Standards (GPS) for K-5 Modern Languages (Five Day Model) develop students’ skills in the skill areas of listening, speaking, reading, writing and cultural competence. In addition, students will be able to view, absorb, and evaluate material from non-print sources.

Organization

The Georgia Performance Standards for K-5 Modern Languages (GPS) are based on Standards for Foreign Language Learning in the 21st Century and the ACTFL Performance Guidelines for K-12 Learners (American Council on the Teaching of Foreign Language). The GPS are organized in outline form, integrating the national standards and the three modes of communication: interpretive (INT), Interpersonal (IP) and presentational (P), as well as Cultural Perspectives, Practices and Products (CU) and Connections, Comparisons, and Communities (CCC). The three modes of communication are defined as follows:

Interpretive: The Interpretive Mode focuses on instances of “one-way” interpretation by the reader or listener of cultural examples such as texts, radio, movies, television broadcasts and other media without active negotiation of meaning. A high level of cultural knowledge is required from the outset, as there is no negotiation with the writer or speaker.

Interpersonal: The Interpersonal Mode focuses on the negotiation of meaning between individuals. This mode can be realized through conversations, letters, emails or any means by which individuals interact, observe, monitor and question in order to obtain meaning and intent.

Presentational: The Presentational Mode focuses on the creation and facilitation of one-way messages in which listeners and readers might interpret and gain knowledge from the “presenter” without the ability to directly negotiate meaning. Examples include presentations, speeches and
writing reports or articles.

Also included are assessment recommendations and a list of suggested skills and topics for each level. The elements are labeled as follows:

MLI.IP1  ML=Modern Language  E1= Elementary Level 1  IP=Interpersonal  1= Element 1

The K-5 GPS specify the Standards and Elements that guide instruction in K-5 five-day per week, thirty-minute per day programs, or similar adaptations.

The GPS for K-5 Modern Languages do not set an upper limit of what can be accomplished by the students; rather, they establish the minimum that students should be able to do by the end of each level.

**Scheduling of Instruction and Recommendations for Newcomers**

Frequency and intensity of instruction are important aspects of program design. In this context, intensity refers to both the length of time and the quality of instruction. If either of these elements is missing or compromised, the quality of the program will be significantly diminished.

The Georgia Performance Standards for K-5 Modern Languages Five-Day FLES Model assumes instruction is provided *5 days per week for thirty minutes per day by a teacher who is proficient in the language and has been trained in appropriate pedagogy to use with young language learners*. Schedules may vary slightly, as long as 150 or more minutes of engaging instruction are provided each week. For example, four 40-minute periods providing a total of 160 minutes of instruction per week would be an acceptable alternative; three periods of thirty-minutes would require the local school district to modify the standards and proficiency levels that students are expected to achieve to reflect less opportunity to acquire the target language.

The standards establish proficiency benchmarks describing what elementary school modern language students will be able to do at the end of each grade completed, K-5, assuming the students were enrolled in the program in the prior grade. The proficiency targets describe to what degree students will be able to listen with comprehension, speak understandably, read and write in the three modes of communication: interpretive, interpersonal, and presentational. Students who enter the program at a later point will certainly gain proficiency, but may not reach the same level of proficiency as peers enrolled for the entire program, particularly if they enter later than grade three.

It is strongly recommended that elementary schools desiring to ensure that students reach the established benchmarks for proficiency by the end of grade 5 make every attempt to provide intensive instruction for newcomers, especially in the upper elementary grades. This will facilitate the opportunity for newcomers to fully realize their potential in reaching the highest proficiency level possible.
Use of Target Language

The GPS for K-5 Modern Languages assume that the target language is used as the language of instruction as close to 100% of the time as possible, beginning on the first day of instruction and continuing throughout the K-5 program. Teachers will utilize the target language themselves and employ highly interactive instructional strategies that actively involve the students in listening, speaking, reading and writing the target language. A student-centered classroom is assumed, with the teacher in the role of facilitator. From the earliest days, students use the target language for specific communicative purposes. Therefore, teachers must ensure that students have adequate time to actively speak and write, as well as listen and read. Grammar is taught implicitly through modeling correct language usage.

Integration of Resources and Technology

A variety of resources are available for teaching K-5 modern languages. While textbooks can be utilized, they may not dictate the curriculum. Whenever possible, teachers should access and use authentic materials and realia and construct materials themselves that encourage student interaction and involvement.

As set forth in the national standards, an important component of language classes is the use of the language beyond the classroom in the real world. The integration of technology is an important tool that can facilitate this goal by allowing students to access authentic information in the target language and by providing students the opportunity to interact with native speakers. This is especially important for grades three through five and can help students develop their technology skills.

Student Profiles and Assessment

Assessment serves to direct instruction and provides students, parents and educational leaders with important feedback. Assessment of student proficiency must be an ongoing practice with an emphasis on frequent formative assessment opportunities and continuous measurement of performance growth.

A Student Profile is provided for each grade level that sets the target proficiency that students should achieve by the end of the year. The profiles are adapted from the National Council of State Supervisors for Languages LinguaFolio Self-Assessment Grid and the Center for Applied Linguistics Oral Proficiency Exam and Student Oral Proficiency Assessment Rating Scale. Each scale is reproduced in full at the end of this document.

These instruments are adapted and utilized in this document by permission from the National Council of State Supervisors for Languages and the Center for Applied Linguistics respectively. Teachers are encouraged to share these scales with their students and regularly provide opportunities for students to reflect on their language learning experiences, assess the progress that they have made, and set new goals for their language learning.
Teachers should make frequent use of simple rubrics, checklists and other observation tools to monitor student progress in all modes and types of communication to ensure that students meet proficiency benchmarks for each grade level.

Teachers are encouraged to implement the full LinguaFolio portfolio assessment tool provided by the National Council of State Supervisors for Languages to monitor and document student performance:

Georgia Performance Standards for Modern Languages - Kindergarten

(Five-Day Model)

Course Description

The Kindergarten language course focuses on the development of communicative competence in the target language and understanding of the culture(s) of the people who speak the language. It assumes that the students have minimal or no prior knowledge of the language and culture.

The major means of communication between students and instructors will be in the target language. Because students may begin formal language learning at various stages of their cognitive development, teachers must adjust vocabulary and content to reflect developmentally appropriate interests.

An important component of language classes is the use of the language beyond the classroom in the real world. The integration of technology is an important tool in accessing authentic information in the target language and in providing students the opportunity to interact with native speakers.

By the end of Kindergarten, students will exhibit Junior Novice-Low to Junior Novice-Mid level proficiency on the COPE-SOPA Rating Scale (see page 56).

Student Profile (Kindergarten)
At the end of the year of instruction, the student should consistently perform in the target proficiency range outlined below across all modes and types of communication.

FROM THE CENTER FOR APPLIED LINGUISTICS ORAL PROFICIENCY EXAM AND STUDENT ORAL PROFICIENCY ASSESSMENT RATING SCALE (COPE/SOPA-RS)

Listening Comprehension (Junior Novice-Low to Junior Novice-Mid)

Junior Novice-Low
Student recognizes single, isolated words, greetings and polite expressions.

Grammar (*Speaking*) (Junior Novice-Low to Junior Novice-Mid)
Junior Novice-Low
Student may use greetings and polite expressions accurately. Student lacks an awareness of grammar and syntax.

Junior Novice-Mid
Student uses memorized expressions with verbs and other short phrases with some accuracy, but inaccuracies are common. Student does not successfully create at the sentence level with conjugated verbs.

Vocabulary (*Speaking*) (Junior Novice-Low to Junior Novice-Mid)
Junior Novice-Low
Student uses single words in very specific topic areas in predictable contexts. Student may use greetings and polite expressions.

Junior Novice-Mid
Student uses single words, short phrases, greetings, polite expressions, and other memorized expressions on a limited number of topics. Frequent searches for words are common. Student may use her or his native language or gestures when attempting to create with language.

The COPE/SOPA Rating Scale is based on the ACTFL Proficiency Guidelines. American Council on the Teaching of Foreign Languages (1986, 1999). Course Description

The Grade 2 language course focuses on the development of communicative competence in the target language and understanding of the culture(s) of the people who speak the language. It assumes that the students have some prior knowledge of the language and culture from previous years. Newcomers to the program will benefit from additional support and exposure.

The major means of communication between students and instructors will be in the target language. Because students may begin formal language learning at various stages of their cognitive development, teachers must adjust vocabulary and content to reflect developmentally appropriate interests.

An important component of language classes is the use of the language beyond the classroom in the real world. The integration of technology is an important tool in accessing authentic information in the target language and in providing students the opportunity to interact with native speakers.

By the end of Grade 2, students will exhibit Junior Novice-Mid to Junior Novice-High level proficiency on the COPE-SOPA Rating Scale (see page 56).

Student Profile (Grade 2)

At the end of the year of instruction, the student should consistently perform in the target proficiency range outlined below across all modes and types of communication.

FROM THE CENTER FOR APPLIED LINGUISTICS ORAL PROFICIENCY EXAM AND STUDENT ORAL PROFICIENCY ASSESSMENT RATING SCALE (COPE/SOPA-RS)

Listening Comprehension (Junior Novice-Mid to Junior Novice-High)

Junior Novice-Mid

Student understands predictable questions, statements, and commands in familiar topic areas (with strong contextual support), though at slower than normal rate of speech and/or with repetitions.

Junior Novice-High

Student understands simple questions, statements, and commands in familiar topic areas and some new sentences with strong contextual support. Student may require repetition, slower speech, or rephrasing.
Georgia Performance Standards for Modern Languages - Grade 2

Oral Fluency (Junior Novice-Mid to Junior Novice-High)
Junior Novice-Mid
Student uses phrases of two or more words, and/or memorized phrases or sentences (e.g., My name is..., I don’t know) in predictable topic areas. Student may attempt to create sentences, but is not successful. Long pauses are common.

Junior Novice-High
Student uses memorized expressions with reasonable ease and shows emerging signs of creating with the language to communicate ideas. Student creates some sentences successfully but cannot sustain sentence-level speech.

Grammar (Speaking) (Junior Novice-Mid to Junior Novice-High)
Junior Novice-Mid
Student uses memorized expressions with verbs and other short phrases with some accuracy, but inaccuracies are common. Student does not successfully create at the sentence level with conjugated verbs.

Junior Novice-High
Student creates some sentences with conjugated verbs, but in other attempts to create sentences, verbs may be lacking or are not conjugated. Other grammatical inaccuracies are present.

Vocabulary (Speaking) (Junior Novice-Mid to Junior Novice-High)
Junior Novice-Mid
Student uses single words, short phrases, greetings, polite expressions, and other memorized expressions on a limited number of topics. Frequent searches for words are common. Student may use her or his native language or gestures when attempting to create with language.

Junior Novice-High
Student uses vocabulary centering on basic objects, places, and common kinship terms, adequate for minimally elaborating utterances in predictable topic areas. Use of native language and gestures is common to expand topics.

(Five-Day Model)

Course Description

The Grade 5 language course focuses on the development of communicative competence in the target language and understanding of the culture(s) of the people who speak the language. It assumes substantial prior knowledge of the language and culture from previous years. Newcomers will benefit from scheduling adaptations and additional instruction.

The major means of communication between students and instructors will be in the target language. Because students may begin formal language learning at various stages of their cognitive development, teachers must adjust vocabulary and content to reflect developmentally appropriate interests.

An important component of language classes is the use of the language beyond the classroom in the real world. The integration of technology is an important tool in accessing authentic information in the target language and in providing students the opportunity to interact with native speakers.

By the end of Grade 5, students will exhibit Junior Novice-High to Junior Intermediate-Low level proficiency on the COPE-SOPA Rating Scale (see page 56).

Student Profile (Grade 5)

At the end of the year of instruction, the student should consistently perform in the target proficiency range outlined below across all modes and types of communication.

From the Center for Applied Linguistics Oral Proficiency Exam and Student Oral Proficiency Assessment Rating Scale (COPE/SOPA-RS)

Listening Comprehension (Junior Novice-Mid to Junior Novice-High)

Junior Novice-High
Student understands simple questions, statements, and commands in familiar topic areas and some new sentences with strong contextual support. Student may require repetition, slower speech, or rephrasing.

Junior Intermediate-Low
Student understands familiar and new sentence-level questions and commands in a limited number of content areas with strong contextual support for unfamiliar topics. Student follows conversation at a fairly normal rate.
Georgia Performance Standards for Modern Languages - Grade 5

Oral Fluency (Junior Novice-High to Junior Intermediate-Low)

Junior Novice-High
Student uses memorized expressions with reasonable ease and shows emerging signs of creating with the language to communicate ideas. Student creates some sentences successfully but cannot sustain sentence-level speech.

Junior Intermediate-Low
Student goes beyond memorized expressions to maintain simple conversations at the sentence level by creating with the language, although in a restrictive and reactive manner. Student handles a limited number of everyday social and academic interactions.

Grammar (Speaking) (Junior Novice-High to Junior Intermediate-Low)

Junior Novice-High
Student creates some sentences with conjugated verbs, but in other attempts to create sentences, verbs may be lacking or are not conjugated. Other grammatical inaccuracies are present.

Junior Intermediate-Low
Student uses a variety of common verbs in present tense (conjugations may be inaccurate) in sentences. Other verb tenses/forms may appear in memorized language. The listener may be confused by this speech due to the many grammatical inaccuracies.

Junior Intermediate-Low
Student has basic vocabulary for making statements and asking questions to satisfy basic social and academic needs, but not for explaining or elaborating on them. Student’s use of some native language is common when vocabulary is lacking.
