ACKNOWLEDGMENTS

Georgia’s competency-based curriculum framework for Junior Reserve Officers Training Corps (JROTC) would not have been possible without the efforts of many people. Representatives of the Army headquarters played a vital role in collaborating with educators to ensure that curriculum reflects the realities of the workplace and effectively prepares students for further education and productive careers. Members of the writing/development team, focus group participants, the State Department of Education program specialist for JROTC, and Instructors throughout the state gave their time and expertise in developing these standards. In addition, their employers generously granted them time off to work on this professional development project. The following individuals provided valuable service in the development of Georgia’s competency-based curriculum standards.

62 Explain why the brain stem is sometimes called “the reptilian brain.”
63 Identify key areas in the midbrain/limbic system and describe their primary function.
64 Label the four lobes of the cerebral cortex.
65 Label major regions in the brain and match them to key functions.
66 Sketch and label three main parts of a neuron.
Name three elements involved in transmitting a stimulus from outside the body to the brain.

Explain why neural networks change and grow to enhance the brain’s processing power.

**Left Brain/Right Brain**

Match activity descriptions to hemisphere based on research regarding specialized brain functions.

Complete a brain dominance inventory.

Describe the differences between global and analytical thinking.

Explain how brain dominance helps determine personality and behavior.

Explain two things you have learned about your own information processing preferences.

Provide at least three reasons why the ability to specialize and synchronize are both important aspects of how the brain functions.

**Learning Style and Processing Preferences**

Name at least three sensory (perceptual) systems.

Explain at least three essential elements of the learning process and describe how the elements relate.

Compare and contrast an automatic versus a purposeful response to stimuli.

State three reasons it is important to become aware of the unique ways in which people learn.

Explain each step in Senge’s ladder of inference, using an example from your own life.

**Learning Models**

Assess your own preferences in each dimension of the Dunn and Dunn model.

State the 5 dimensions included in Dunn and Dunn’s learning model.

List at least two specifics within each of the five dimensions in Dunn and Dunn’s learning model.

Name two actions you can take, using knowledge of your preferences, to become a more active, effective learner.

Explore how to expand beyond your current preferences.

State three reasons why knowing individual preferences of team members helps a team to achieve goals.

**Multiple Intelligences**

Compare and contrast your current understanding of intelligence with Gardner’s definition.

Match a list of statements to one of the eight types of intelligence identified by Gardner.

Distinguish between inter- and intra- personal.

Present three activities to develop intelligence in one of the eight areas Gardner
has defined.
90 Design two activities you can do in the next two weeks, using what you have learned about your intellectual strengths, to improve in one of your classes at school.
91 Discuss how ineffective speakers can improve their speech making.
92 Strategize to improve speaking ability by avoiding common mistakes.
93 Develop coping strategies for stressful speaking situations.
94 Provide constructive feedback to speakers.

Communicating in Groups
95 Identify the elements in the communication process.

102 Evaluate the steps to managing conflicts and personal conflict management skills.
103 Recognize different hot buttons and the behavior style they indicate.
104 Respond to conflict situations positively through role-play.
105 Evaluate the pros and cons of alternatives to determine potential solutions to conflict.

Preparing to Teach
106 Describe five critical elements you need to consider in preparing to teach.
107 Write effective learning objectives by constructing each to include the task, condition and standard for student performance.
108 Identify the various types of training aids and describe how to effectively use them in a classroom.
109 Describe at least six tips for planning a lesson.

Using and Developing Lesson Plans
110 Explain the purpose of a lesson plan.
111 Identify the four phases of a lesson plan, and each phase’s purpose.
112 Describe the teacher’s role and the potential benefits to students in each phase.
113 Create a lesson plan utilizing the four-phase process.
Delivering Instruction
114 Describe a lesson objective, quantitative standard and training aids.
115 Describe seven types of teaching methods and identify when to use each type in a classroom.
116 Identify the five types of practical exercises.
117 Explain the process of rehearsing.
118 Design a presentation using one of the seven teaching methods.

Use Variety in Your Lesson Plan
119 Define cooperative learning and identify the benefits of using cooperative learning strategies in the classroom.
120 Identify and describe at least two cooperative learning strategies you could use in a lesson plan that encourage team building.
121 Identify and describe at least two cooperative learning strategies you could use in a lesson plan that require students to respond to or discuss questions posed in the lesson.
122 Identify and describe at least four cooperative learning strategies you could use in a lesson plan so that learners could gather, share, and learn a great deal of material in a short amount of time.
123 Explain how incorporating a variety of learning styles and multiple intelligences benefit learners in the classroom.

Graphic Organizers
124 Define graphic organizers and describe the benefits of graphic organizers to the learner.
125 Identify the graphic organizers that help learners brainstorm or associate ideas and concepts.
126 Identify the graphic organizers that are useful for learners when comparing or prioritizing information.
127 Identify the graphic organizers that are most useful to learners when they need to analyze or compare information.
128 Identify the graphic organizers that are most effective in sequencing and visualizing information.
129 Identify the graphic organizers that are most useful for connecting or reflecting on ideas or concepts.

Using Feedback in the Classroom
130 Describe the purpose of feedback in a classroom and four ways that feedback can be effective.
131 Identify the five characteristics or conditions of effective feedback.
132 Identify the basic ground rules and tips for giving effective feedback.

Making the Right Choices
133 List at least two effective strategies for decision-making.
134 Name at least two ineffective strategies for decision-making.
Apply the F-I-N-D-S model to make decisions. Analyze potential solutions to determine the best alternative. Evaluate decisions for effectiveness.

**Goals and Goal Setting**
Define goals and differentiate among short-, medium- and long-term goals. Define a set of personal goals that includes short-, medium- and long-term goals. Analyze goals to determine what makes them meaningful. Create a plan for achieving one long-term goal.

Ready, Go...Crossing the Finish Line - Year 2
Practice improving your scores.
Recognize scores necessary to achieve the Presidential Physical Fitness Award.

First Aid for Burns
Identify the degrees of burns and their characteristics.
Demonstrate how to treat first-, second-, and third-degree heat burns.
Explain how to prevent heat burns.
Demonstrate how to treat electrical burns.
Explain how to prevent electrical burns.
Demonstrate how to treat chemical burns to the skin and eyes.
Explain how to prevent chemical burns.

First Aid for Poisons, Wounds, and Bruises
Recognize causes and symptoms of poisoning.
Demonstrate how to treat for poisons.
Identify the four kinds of wounds.
Demonstrate how to treat minor wounds and bruises.

Heat Injuries
Explain the cause and effect of heat injuries.
Describe factors to consider in hot weather situations.
Identify the three types of heat injuries and their symptoms.
Demonstrate how to treat heat cramps.
Demonstrate how to treat heat exhaustion.
Demonstrate how to treat heatstroke.
Explain how to prevent heat injuries.

Cold Weather Injuries
Describe factors to consider in cold weather situations.
Explain causes and effects of cold weather injuries.
Identify types of cold weather injuries and their symptoms.
Demonstrate how to treat frostbite, immersion foot/trench foot, hypothermia and snow blindness.
Explain how to prevent cold weather injuries.
Bites, Stings, and Poisonous Hazards
194 Identify types of venoms.
195 Identify types of snakes and the symptoms of their bites.
196 Explain how to prevent snakebites.
197 List possible results of human and animal bites.
198 Identify symptoms of insect bites and stings.
199 Explain how to prevent insect bites and stings.
200 Identify types of poisonous plants and possible reactions to contact with them.
201 Explain how to treat for contact with poisonous plants.
202 Explain how to prevent exposure to poisonous plants.

Drugs - Use and Effect
203 Identify the 6 types of drugs to include stimulants, depressants, hallucinogens, narcotics, designer drugs, and inhalants.
204 Recognize that drugs affect the natural state of the body.
205 Recognize the risks associated with various drugs.
206 Identify where and how various drugs affect the body.
207 Describe your concern about the physical effects of drugs.

Tobacco - Use and Effect
208 Define the terms Stimulant, Dependency, and Nicotine.
209 Describe ways that people use tobacco products.
210 Identify the three major components of tobacco and what they do to the human body.
211 Identify short- and long-term effects of tobacco use on the human body.
212 Identify risks associated with second-hand smoke.

Alcohol - Use and Effect
213 State/Recall the definition for the terms depressant and alcohol.
214 Describe ways people use alcohol products.
215 Identify short- and long-term effects of alcohol consumption and abuse on the human body.
216 List five factors that influence the effect alcohol has on an individual.

Substance Abuse Intervention
217 Identify two kinds of intervention - Interpersonal and Enforcement.
218 Recognize signs of substance abuse.
219 Describe why people abuse substances and ways to remain drug-, alcohol-, and tobacco-free.
220 Identify ways to approach/help someone you suspect has a drug problem.
221 Identify two intervention approaches used by law enforcement.

Substance Abuse Prevention
222 Distinguish agencies within your school/local community that are involved in fighting substance abuse.
223 Recognize ways you can aid in the prevention of substance abuse.
Introduction to Maps
224 Define map.
225 Identify symbols, colors, and features on standard road maps.
226 Identify locations on a city and state map.
227 Communicate directions to specified sites using a city and state map.

Orienteering
228 Define orienteering and how it originated.
229 Differentiate between six types of orienteering courses.
230 Demonstrate the 5-step process to determine direction of travel.
231 Demonstrate five movement techniques used in orienteering.
232 Identify three control areas and five safety aspects used in orienteering.
233 Demonstrate proper orienteering techniques and map reading/land navigation skills if given the opportunity to participate in an orienteering event.

Making Decisions - Majority and Consensus
234 Define Simple Majority and Consensus.
235 Design a process for decision-making.
236 Apply Simple Majority and Consensus.

Establishing Ground Rules
237 Define Simple Majority and Consensus.
238 Recall the ground rules for the You the People process.
239 Analyze the importance of the ground rules.
240 Classify the ground rules for the You the People process.
241 Evaluate your understanding of each ground rule.

Small Group Meetings
242 Identify the Small Group Meeting roles.
243 Describe the Small Group Meeting agenda.
244 Explain the Small Group Meeting process.
245 Assign roles to each Small Group member.
246 Choose a group name and group leader.
247 Design a process for the role rotations.
248 Apply the Small Group Meeting process.

Representative Group Session
249 Identify the Small Group Meeting roles.

28.03300 JROTC Army III

Advanced Leadership, Principles of Management, Advanced Life Skills, Orienteering and History

COURSE DESCRIPTION: This course includes classroom instruction and laboratory instruction expanding on the skills taught in LET 1 - 2. This course allows cadets to investigate the interrelationships of the services while it continues to build their leadership development and decision-making skills. It includes negotiation skills and management principles. It emphasizes staff procedures and provides leadership situations and opportunities to handle various leadership situations as well as preventing violence and managing anger. The research, identification, planning, and execution of service learning activities are included. This course gives cadets the opportunity to apply basic concepts of career exploration strategies and planning. It teaches how to create a career portfolio and plan for college or work. Financial management principles are studied further. Skills for orienteering and/or land navigation are developed. Includes studies in the federal judicial system and how historical events shaped social systems. The performance standards in this course are based on the performance standards identified in the curriculum for the US Army JROTC. Successful completion of at least three units of credit in the Army JROTC program will qualify the student for advanced placement in a college ROTC program or accelerated promotion in the military service.

COURSE PREREQUISITES: LET 2
